

OES Global Health Survey Disease List

Cancer/Benign Tumors

- Bladder Cancer
- Colon Cancer
- Hemangiosarcoma (cancer of the blood vessels)
- Benign Histiocytoma (benign skin tumors)
- Malignant Histiocytoma
- Leukemia (cancer of bone marrow)
- Lipoma (benign fatty tumors)
- Lymphosarcoma (cancer of lymph glands)
- Mammary Gland Cancer
- Mast Cell Tumor (type of skin cancer)
- Melanoma (type of skin cancer)
- Nasal Tumors
- Oral tumors
- Osteosarcoma (bone cancer)
- Prostate Cancer
- Perianal tumors (around the anus)
- Testicular Cancer
- Other

Cardiovascular (Heart)

- Aortic Stenosis
- Cardiomyopathy, Dilated (chamber enlarged)
- Cardiomyopathy, Hypertrophic (heart muscle enlarged)
- Cardiomyopathy, Unknown type (congestive heart failure)
- Heart Failure (unknown reason)
- Mitral Valve Defect
- Patent Ductus Arteriosus (PDA)
- Pulmonic Stenosis
- Subaortic Stenosis (SAS)
- Other

Respiratory

- Chronic Aspiration Pneumonia
- Chronic Bronchitis
- Other

Allergies - Environmental (Scratching, Redness, Sneezing)

- Contact Allergies
- Food
- Fleas
- Inhalant Allergens
- Unknown Origins
- Other

Allergies – (Sensitivities Drugs, Vaccines)

- Anesthesia
- Antibiotics
- Ivermectin
- Flea prevention products
- Heartworm preventative
- Vaccine Reaction
- Other

Endocrine (examples: Thyroid, Diabetes)

- Addison's Disease (hypoadrenalcorticism)
- Cushing's Disease (hyperadrenalcorticism)
- Diabetes Mellitus (insulin dependent)
- Exocrine Pancreatic Insufficiency (low bile excretion)
- Hypothyroid (low thyroid)
- Pancreatitis (inflammation of the Pancreas)
- Other

Gastrointestinal (stomach/intestines)/Dental

- Bloat with torsion (dilation and twist of stomach)
- Bloat without torsion (no twist)
- Esophagitis (inflammation of the esophagus causing vomiting)
- Gastritis (upset stomach)
- Irritable Bowel Syndrome (IBS)
- Megaesophagus (enlarged/dilated esophagus)
- Protein Losing Enteropathy (intestinal malabsorption)
- Megacolon (enlarged/dilated colon)
- Other

Bladder/Kidney

- Bladder stones
- Cystitis (bladder infections)
- Kidney failure
- Female Urinary incontinence (leaking urine)
- Male Urinary incontinence (leaking urine)
- Other

Neurological

- Cerebellar Abiotrophy (CA) (Diagnosed by Neurologist or Vet only)
- Dementia (senility)
- Degenerative Disc Disease
- Idiopathic Vestibular Disease (stroke like symptoms- vertigo)
- Seizures of known origin
- Seizures of unknown origin
- Wobbler's syndrome (cervical malformation)
- Other

Musculoskeletal (Muscles & Bones)

- Anterior Cruciate ligament tear (ACL)
- OsteoArthritis (not rheumatoid)
- Elbow dysplasia
- Hip dysplasia
- Osteochondritis dissecans (OCD) is separation of immature cartilage from bone
- Panosteitis (inflammation of the bone-growing pains)
- Luxating Patellas (dislocation of knee caps)
- Spondylosis (arthritis of spine)
- Other

Eyes

- Distichiasis (abnormal eyelashes)
- Dry Eye (KCS or Keratoconjunctivitis sicca)
- Ectropion (eyelid turns outward)
- Entropion (eyelid turn inward)
- Geriatric Cataracts
- Glaucoma (increased interior eye pressure)
- Juvenile Cataracts
- Non-healing Ulcer
- Persistent Pupillary Membranes (PPM)
- Progressive Retinal Atrophy
- Prolapsed 3rd Eyelid ("Cherry eye")
- Retinal Detachment
- Retinal Dysplasia
- Other

Ears/Hearing

- Deafness (one ear)
- Deafness (both ears)
- Other

Skin/Coat

- Demodectic Mange
- Interdigital Cysts (infection lumps between toes)
- Lick granuloma (Behavioral)
- Sebaceous Adenitis (type of inflammation of skin)
- Sebaceous Cysts (benign retention cyst; like a zit)
- Other

Reproductive - Female

- Brucellosis
- Failure to carry to term
- False pregnancy
- Infertility (failure to conceive)
- Insufficient Milk
- Irregular heat cycles
- Mastitis
- Poor mothering instinct
- Pyometra
- Required C-section
- Silent heat cycles
- Uterine inertia (unable to push pups out)
- Uterine prolapse
- Vaginal Hyperplasia (protrusion of vaginal tissue during heat cycle)
- Other

Reproductive- Male

- Abnormal sperm (large numbers of only)

Benign Hypertrophic Prostatitis (enlarged prostate/BPH)
Brucellosis
Low sperm numbers
No sperm
Lack of Libido
Cryptorchidism (one testicle)
Both testicles missing
Testicular atrophy (decrease in size)
Other

Autoimmune Diseases

Hemolytic Anemia (red blood cell disorder)
Polyarthritis (like rheumatoid arthritis)
Polymyositis (affects muscles)
Systemic Lupus Erythematosus (a.k.a. lupus; affects multiple systems)
Thrombocytopenia (clotting cells disorder)
Myasthenia Gravis
Other

Hepatic (Liver)/Bleeding Disorders

Portosystemic Shunt
Copper Toxicity
Cirrhosis
Hemophilia
Von Willebrand's Disease
Disseminated Intravascular Coagulation (DIC)
Thrombosis (abnormal blood clot formation)
Other

Comment(s)
